Mr. Blalock presented a request from Paul Andrews to get credit for a course that he taught at ECU. We will follow our policy of approving the teaching of a course one time only.

Another request from James Pascal to approve Microsoft computer courses in general. He will need to make a more specific request per course.

Recommendation to use the exam scores if they can be verified for those people who were registered by North Carolina and for whatever reason let their registration lapse and then reapply to the Board for registration.
